

## Membership Renewal

Homelessness NSW values the on-going contribution of our members in helping us to prevent and reduce homelessness in NSW.

As an organisation we represent and support services that assist people who are homeless or at risk of homelessness. We are committed to preventing and reducing homelessness through good policy, strong advocacy, and the promotion of high quality services and the sharing of information, innovation and insights.

Membership of Homelessness NSW provides opportunities to participate in various policy development and other committees and provides you with an active voice in lobbying to improve the service response to people experiencing and at risk of homelessness. It also enables discounts to be given on conference, forum and seminar fees as well as specialist training courses and publications. Members also receive regular information regarding key activities and events occurring within the homelessness sector, newsletters, information bulletins and mail-outs.
